Scrub Nurse in Minimally Invasive and Robotic General Surgery

Endorsed by the Italian Society of Endoscopic and Laparoscopic Surgery & New technologies and by the Italian Association of Scrub Nurses

- Endorsed by the Italian Society of Endoscopic and Laparoscopic Surgery & by the Italian Association of Scrub Nurses Provides a clear guidance on robotic and laparoscopic surgical procedures step by step Underlines and identifies the active role of the scrub nurses during minimally invasive and ro...

This comprehensive book provides an excellent overview on the role of the scrub and circulating nurse during minimally invasive procedures and a detailed description of the specific instruments adopted during surgical procedures in each subspecialty areas as esophago-gastric, colorectal, endocrino-metabolic, hepato-biliary, spleno-pancreatic and abdominal wall surgery. The concept that laparoscopy now allows everyone to actively see all the surgical steps and therefore to be no longer just a simple "another man/woman in the theatre" but an active actor. The need therefore for all the nurses – and above all the scrub ones - to know and to have the knowledge - and therefore to have in a sort of parallelism thanks to this manual - the purely medical surgical steps with the corresponding and parallel nursing ones: an added value in the training and preparation of the all the people involved in surgery. This practical book correlated by images guides scrub nurse in all operative phases. The Scrub Nurse in Minimally Invasive and Robotic General Surgery also explores the legal aspects in the scrub nursing. The Italian Society of Endoscopic and Laparoscopic Surgery & New technologies and the Italian Association of Scrub Nurses endorse this book.
